

# MAKING A HANDMADE TRADITIONAL TOY

Astoria International School

- We love to study together, but we also love to play. We are all good friends.
- We decided to create paper toys because we have paper around us and we think that we should use it to work and to have fun.

# Why did we create these toys?

- “We wanted to do something with dice and cards.”
- “I love the game, it’s simple.”
- “We didn’t have a lot of ideas, so we tried to create something simple and useful to learn something, in our case, diferente sizes”.
- “We decided to share a game that we love since ever.”
